

WORKSHEET

Station 2 – Water pollution and purification*Step 1*

Pour some water in a tray. Add 1 tea spoon of black pepper. (In this way, the pollution of the water is visualized.)

What do you observe?

Step 2

Dip your finger in the water. What do you observe? Do you like the dirt left on your finger?

Step 3

Now dip a finger in a bowl with liquid soap, and then, put it in the tray from Step 1. What do you observe?
